### REPORTED PROFILING INCIDENTS

Motorcycle profiling means the illegal use of the fact that a person rides a motorcycle or wears motorcycle related apparel as a factor in deciding to stop and question, take enforcement action, arrest, or search a person or vehicle with or without legal basis.

More and more, motorcyclists across the country feel singled out by law enforcement because of their appearance, apparel, or because they are simply riding a motorcycle. In fact, according to a recently conducted national survey, over half of the respondents felt they had been profiled by law enforcement despite not committing any traffic infractions. Unfortunately, the stereotype of the "criminal biker" has been exacerbated by television shows such as "Sons of Anarchy" that depict motorcyclists as dangerous and unlawful citizens, and responsible motorcyclists are suffering the consequences.
